A Wealden Woman's War

This talk from Penny Harris is based on a book called *A Wealden Woman's War*, which is a true story. Mostly nostalgic, it covers the war years, starting in 1940 with Edwina's story of her life in the WAAF, meeting a one-legged Spitfire Pilot and their subsequent marriage and life together. After the war, their decision to run a country pub, the locals, and the joys of the visiting hop pickers and the hopping year.
